

Demonstration Gardens are open all year!

2012

FREE GARDEN TOUR

Take a guided tour the last Sunday of each month from April through October or explore the gardens anytime at your own pace. Each Sunday tour is approximately an hour long and starts at 1PM.

April 29 • May 27

June 24 • July 29 • August 26

September 30 • October 28

Learn about the ever-changing display of plants native to our region; perennials, ornamental grasses, annuals, herbs, ferns, and more.

Children will enjoy activities hosted by our Master Gardeners.

Directions:

East off Exit 14 on Palisades Parkway to the first traffic light. Turn left on Patriot Hills Drive.

Cornell University
Cooperative Extension
Rockland County

10 Patriot Hills Drive
Stony Point, NY 10980
(845) 429 - 7085

Master Gardeners of Cornell Cooperative Extension of Rockland County plan and maintain the Demonstration Gardens, trying out new and different plants to determine their suitability for our area. Some of the plants are selected for drought tolerance or deer resistance. Others for size, blooming time, or winter interest. Maintenance follows Cornell's Integrated Pest Management(IPM). This approach encourages the minimal use of toxic pesticides.

The **Cutting Garden** presents ideas for growing plants well suited for life in a vase.

The **Fern Garden** boasts more than 15 varieties of ferns hardy to this region.

The **Herb Garden**, attractive, flavorful and often fragrant herbs demonstrate that herbs are not only useful but also beautiful.

The **Hillside Garden** illustrates how to turn a sloping area into a charming display of colorful foliage and blooms throughout the growing season.

The **Native Plant Garden** is devoted to plants native to our region. These plants, which can be beautiful and easy to maintain, are often overlooked by gardeners.

The **Ornamental Grass Garden** includes over 20 varieties which can be adapted to any landscape and can provide winter interest in any garden.

The **Ralph Snodsmith Perennial Garden**, showcases an extensive display of perennials. It's named for the well-known horticulturist and host of the Garden Hotline Radio show.

The **Rain Garden** holds and filters rain run off from roofs and paved surfaces returning water to the ground instead of to storm drains.

Cornell Cooperative Extension actively supports equal educational and employment opportunities. Please contact the Cornell Cooperative Extension of Rockland County office if you have any special needs.
